Five Quick Tips

To make your life a little easier.

▷ 1

Carry your ID card.

Show your **Priority**Medicare Rx member identification (ID) card every time you fill a prescription. Use it instead of your red, white and blue Medicare card.

▷ 2

Use the network.

Use pharmacies in the Priority Health Medicare network. We've negotiated discounted rates with our network providers to save you money.

▷ 3

Ask for generics.

A generic drug has the same active ingredient formula as the brand name drug. When you and your provider choose a generic drug, you save money and still get good medicine.

Keep your records up to date.

Let us know within 30 days if something changes so we can update our records.

Changes to your benefits

Each year, we review our **PriorityMedicare Rx** plan and may make adjustments to ensure we're providing appropriate coverage at affordable rates. Due to this annual review, benefits, formulary, pharmacy network, premium, and/or copays/coinsurance may change January 1, 2012. Please contact Priority Health Medicare for details.

Each year, we'll send you information about any changes. You'll have time to review them before the annual enrollment period, which starting in 2011 will run from October 15 – December 7, and consider other plans if you choose.

*Keep the documents you receive in your membership packet in a safe place. Refer to them for detailed information about your **PriorityMedicare Rx** plan.*

The Priority Health Medicare Network

Priority Health Medicare has a network of more than 63,000 pharmacies, including national chains. Any location of these national chains is considered in our network. We've negotiated special rates with our network pharmacies to help save you money.

You must use pharmacies in our network to receive prescription drug benefits from your **Priority**Medicare Rx plan, except in certain cases. Quantity limitations and restrictions may apply.

If you choose to fill your prescription at a pharmacy that's not in our network, you will have to pay up front and seek reimbursement. **Priority**Medicare Rx may reimburse you up to the negotiated in-network pharmacy cost (minus your copay or coinsurance amount). We may not pay for your prescriptions if you use an out-of-network pharmacy, except in certain cases. For example; when you are travelling or in need of a drug that cannot be found at a network pharmacy.

Copays

You may pay a portion of the cost of your prescriptions. This is a copay. Your copay depends on the type of drug and the total amount you've already paid for prescriptions during the year. If a drug costs less than your copay, you pay the actual drug cost instead of the higher copay.

You must use network pharmacies to fill your prescriptions. We've negotiated discounts, which average 16% on most brand name drugs and up to 30% on generics. Since you're responsible for 93% of generic drug costs and 100% of the discounted brand drug costs during the coverage gap, using our network of pharmacies will help save you money.

Enjoy Choice

There are more than 63,000 pharmacies in the Priority Health Medicare network, including national chains. Any location of these chains in the U.S. is part of our network.

Using Your Benefits

Using **Priority**Medicare Rx to get your prescription drugs is simple. The information below will help you learn how to fill prescriptions conveniently and cost-effectively.

Approved drugs

PriorityMedicare Rx uses an approved drug list, also called a formulary. This is a list of the drugs approved for coverage under your prescription drug plan. If a drug you need isn't on our approved drug list, your provider can request that we make an exception for covering it.

If you are a new member of **Priority**Medicare Rx, you have received a copy of the approved drug list in this packet. If you have been a member of our plan for over a year, you received a copy in the packet of information you received in late October or early November that explained your plan's changes for 2011. The approved drug list can also be found on our website at priorityhealth.com.

Generics

Be sure to ask your doctor about generics. A generic drug has the same active ingredient (formula) as the brand name drug. When you and your provider choose a generic drug, you save money and still get good medicine.

Filling prescriptions

To fill a prescription:

- First make sure the drug is on our approved drug list.
- Take your prescription to any network pharmacy.
- Show your **Priority**Medicare Rx ID card at the pharmacy.
- Pay any copay or coinsurance due or, the total charge if you're responsible for an out-of-pocket cost.

Save Money

Save on your prescription drug costs by filling your prescriptions at pharmacies in our network. See your pharmacy directory or call us at the number on the bottom of these pages.

You'll find a list of our network pharmacies in your pharmacy directory. You can also go to priorityhealth.com and click on "Find a Doctor" to search for a pharmacy.

Mail order prescriptions

With our mail order pharmacy, you'll get up to a 90-day supply of your prescription for less. Usually you'll get a 90-day supply for the cost of two and a half copays.

- You'll need to ask your doctor to write the prescription for a 90-day supply of an approved drug.
- Complete and mail the form enclosed with this handbook if you want to use our mail order service.
- You can order prescriptions by phone 24 hours a day, seven days a week, by calling 888 378-2589 (TTY users should call 711).

Glossary

To help you understand your benefits, we've put together explanations of some terms we often use. If you have questions about any of the information in our materials, call Customer Service using the numbers on the bottom of these pages.

Approved drug list – A list of drugs that are included in your prescription drug plan. This list also shows whether the drug is generic, preferred brand or non-preferred brand, which will affect the amount of your copay. Some drugs may require preapproval. If a drug isn't approved, you'll need to pay its full cost.

Coinsurance – This is the portion of your health care costs that you're responsible for paying, apart from any copays or deductibles.

Copay – A specified charge for a service, such as the amount you'll pay to fill a prescription. Usually, you'll pay your copay at the time you pick up your prescriptions. You'll find your copay amounts listed on your **Priority**Medicare Rx ID card and in your Evidence of Coverage.

Explanation of Benefits (EOB) – A statement you receive from Priority Health Medicare that provides you with details of claims paid for prescription drugs.

Formulary – See "Approved drug list."

Generic drug – A drug that has the same ingredients and/or treats the same condition as a brand name drug. Generic drugs are usually as effective as their brand name counterparts but cost less.

Identification (ID) card – A wallet-sized card that shows you're enrolled in a **Priority**Medicare Rx plan. It includes your name, contract number and group number. Show your **Priority**Medicare Rx ID card whenever you receive prescription drug services.

HIPAA – The Health Insurance Portability and Accountability Act of 1996 (HIPAA) protects your privacy by making sure we don't give your health information to anyone without your permission. HIPAA also forbids us from denying you coverage due to pre-existing conditions.

Mail order pharmacy – You can save money when you get up to a 90-day supply of your prescription through our mail order service. See page 14 for details.

Non-preferred brand drug – This is the most costly category of drugs, usually because these drugs have been introduced to the market recently. Your copay is higher for non-preferred brand drugs.

Out-of-pocket costs – The amount you must pay for your prescription drugs, including copays, coinsurance and deductibles.

Preferred brand drug – These are usually brand name drugs that have been on the market for a while or are commonly prescribed. Preferred brand drugs usually cost less than non-preferred brand drugs.

Priority Health Medicare network – Priority Health Medicare has special rates with a network of pharmacies, including national chains. You save on your prescription costs when you use our network.

Step therapy – The practice of trying one or more similar, lower cost drugs before Priority Health Medicare will cover the prescribed drug. For example, if Drug A and Drug B both treat your medical condition, you'll try Drug A first because it is more cost-effective. If that doesn't work, we'll cover Drug B.

Notice of Privacy Practices

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

Our commitment to you

Priority Health understands the importance of handling protected health information with care. We are committed to protecting the privacy of our members' health information in every setting. State and federal laws require us to make sure that your health information is kept private.

This information is used and disclosed to coordinate and oversee your medical treatment, pay your medical claims and assist in health care operations. The use and disclosure of your health information ends when your coverage ends, except to pay for services received relating to the time that you were covered or for certain

health care operations of Priority Health or our providers.

It also states your rights under these laws with respect to the use and disclosure of your health information. Priority Health is required by law to follow the terms of the Notice currently in effect.

work activities such as looking at the quality of your care, carrying out utilization review, confirming benefit eligibility, employee training and review processes, monitoring and auditing activities, and Priority Health's business management and general administrative duties. For example, your health information may be released to members of Priority Health's staff to review the quality of care and outcomes. Your health information may also be released to doctors or doctor groups involved in your care to improve patient care.

Court documents may be required to verify this authority.

Potential impact of other applicable laws

HIPAA (the federal privacy law) generally does not preempt, or override other laws that give people greater privacy protections. Therefore, if any state or federal privacy law requires us to provide you with more privacy protections, we are obligated to comply with that law in addition to HIPAA.

Confidentiality in all settings

We have policies and procedures in place that protect the privacy of your information.
