

HealthbyChoice Incentives

Your bonus for renewing.

Streamlined for 100+ groups

Free Biometric Screenings

Renew **Health**byChoice Incentives and get biometric screenings at your workplace — at no extra cost to you or your employees.

We've made it easier than ever for you to provide excellent, cost-effective benefits with our **Health**byChoice IncentivesSM plan. When you renew, we'll conduct biometric screenings onsite at your workplace. That means your employees who meet the health criteria can qualify for Choice benefits the easy way. And a spouse or domestic partner can, too, if covered by the plan.

Instead of needing a doctor's appointment to complete the **Health**byChoice Incentives qualification form every year, on alternating years it can be done quickly and easily at work by expertly trained and experienced Priority Health screeners. As a result, you get extra value from your benefits plan — our screenings normally cost \$36 each. And participants who are living healthy will enjoy the perk of qualifying for Choice benefits without the cost and time of a doctor's appointment.

Simple & comprehensive

When a workplace screening confirms a participant meets the three **Health**byChoice Incentives health indicators (no tobacco use, Body Mass Index under 30 and blood pressure under 140/90), Choice benefits are renewed with no doctor's appointment required. Those who don't meet all three criteria or choose not to do an onsite screening can still qualify for Choice benefits by making an appointment with their doctor to complete the qualification form. Those who don't meet Choice requirements will be covered at the Standard level (higher copays and deductibles).

Working for you & your employees

An important part of **Health**byChoice Incentives, biometric screenings assess the health of your employees and provide the insights needed to help them improve their health. Our complimentary screenings ...

continued >

- Include measures for height/weight (Body Mass Index), tobacco use and blood pressure
- Are conducted by our expertly trained and experienced staff
- Use fully certified equipment
- Include onsite review of results with each participant immediately after the screening
- Eliminate the need for printed qualification forms for those who meet the criteria
- Are available 24 hours a day, seven days a week to align with your work shifts and locations (small fee may apply)
- Are prescheduled to make sure your employees don't waste time in line
- Can be scheduled by your employees themselves using our online tool, or your benefits administrator can schedule them if you prefer a paper-based system
- Take less than 15 minutes each
- Are offered alternating years — to ensure participants see their doctor at least once every other year as part of a commitment to preventive care

A no-cost-added value

To make it easy to renew your **HealthbyChoice** plan, our screenings are provided at no additional cost to groups that qualify:

- Renewing with 100 or more **HealthbyChoice** employee participants
- Minimum of 25 participants per location (screenings for smaller groups are available for a \$300-per-location fee in Michigan and \$425 out of state)
- All onsite screenings must be completed at least five days before the effective date
- If you must cancel a session, a fee of \$18 for each scheduled participant will be applied
- If fewer than 80% of scheduled participants complete the screening, a fee of \$36 will be applied for each one
