

PriorityHMO is no ordinary health maintenance organization. It's the affordable open network health plan that offers your employees maximum savings and no-hassle access to high quality health care services—when and where they're needed.

It's About Affordability

Special negotiated rates with network providers keep copayments low and overall costs affordable.

Routine physicals, immunizations, prenatal care and mammograms are 100 percent covered, less the office visit copayment.

Any pharmacy in our nationwide network will fill prescriptions for the normal copayment, if the plan includes prescription coverage.

It's About Choice

Our network extends throughout Michigan and includes top hospitals, doctors and other providers.

No referrals are required to see in-network specialists.

Each family member can choose a different Primary Care Provider (PCP).

Changing PCPs is easy—online or with one phone call.

Emergency care coverage is available wherever members travel in the U.S.

It's About Flexibility

Choose from various levels of copayments and deductibles to control costs.

Add options like **PriorityPharmacySM** or Wellness Services to create a more attractive benefits package.

Incorporate health savings accounts (HSAs) or other plans to help your employees become more informed and engaged health care consumers.

Select the funding option that best meets your company's needs.
