

PriorityPPO is a preferred provider organization (PPO) plan, which means your employees have access to our preferred network of health care providers as well as to non-network providers of their choice.

It's the flexible health plan solution for companies with employees outside the Priority Health service area who want to provide maximum choice and cost-effective coverage.

Maximum Flexibility

Two benefits levels—**Network** and **Non-network**—ensure your employees are covered wherever they live or work.

Network benefits apply when your employees use our extensive network. We've negotiated special rates so they pay less for these in-network services.

Non-network benefits apply when your employees see providers outside of our network. They typically will pay higher out-of-pocket costs.

Your employees are free to move back and forth between **Network** and **Non-network** benefits, depending on their needs.

Exceptional Choice

Your employees can choose who provides their care and where. They aren't required to choose a Primary Care Provider (PCP), and can coordinate their own care.

No referrals are required to see specialists. (However, seeing specialists outside our network is covered under the higher-cost **Non-network** benefits.)

Our network extends throughout Michigan and across the U.S. so coverage is available wherever your employees are. (They just pay higher costs if they receive care outside our network.)

Surprisingly Affordable

PriorityPPO provides medical coverage at a lower cost than traditional health insurance plans. Your employees enjoy low copayments and lower out-of-pocket costs when they use **Network** benefits.

Incredibly Easy

Priority Health takes care of the paperwork—no time-consuming, complex claims forms are required. Customized tools and support help simplify your company's open enrollment process. Track, update and manage your account 24/7 with our Online Employer Center. Enjoy responsive, friendly customer service without the runaround.
