Welcome to Patient Profile

Update Our Data

Click "Update our Data" on the Patient Health Profile page to submit supplemental data. Data submissions will be reflected each Monday morning, after our weekly data updates.

Missing MCIR data?

MCIR uses very strict matching criteria before giving Priority Health data about a patient. To help increase the percentage of patients whose data we receive, enter their 12-digit MCIR NUMBERS in the new field in Patient Profile under "Update Our Data". This will save you time in January, when we ask you to fill in the missing immunization data manually with MCIR documentation.

Care Opportunities for Physician Incentive Program (PIP)

Easily identify care opportunities for patients that meet PIP program criteria by watching for this icon  that shows patients who need a service for a PIP measure. Look to the glossary for more details.

Lab Values Being Reported

Some participating hospitals are able to provide us with patient lab values for HBA1C and LDL. As additional hospitals are able to provide electronic data, you will see more patients with reported lab values.

Questions

 Please direct questions to your provider representative or [click here to contact us](#).

Patient Profile Tools

-  **Patient Search**
Conduct a search for an individual patient and pull their information for an upcoming office visit.
- Health Condition Search**
Search your entire patient population within a unique health condition.
- Resource List**
Find a listing of essential forms and articles for specific health conditions.
- Glossary**
Get definitions about the terms used in this tool.

Step 1
Select Health Condition Search

PATIENT PROFILE

* Indicates required information

REQUEST SEARCH		VIEW RESULTS BY	
Health Condition *	Select Provider by Name	Order By	
<input type="text" value="SELECT ONE"/>	<input type="text" value="SELECT ONE"/>	<input type="text" value="LAST NAME"/>	
or			
	Select Provider by Primary Clinic	Display	
<input type="text" value="SELECT ONE"/>	<input type="text" value="SELECT ONE"/>	<input type="text" value="10 PER PAGE"/>	

Note To request a search, make a selection from the Health Condition drop-down box, select a provider by name or by primary clinic, and click SEARCH.
