

APPENDIX L
ACCEPTANCE/CONTINUED PARTICIPATION CRITERIA
NEUROPSYCHOLOGIST

Neuropsychologists will be allowed to bill for services consistent with Michigan Board of Psychology Licensure and Medicare scope of services. In order to be allowed acceptance into or continued participation in Priority Health, neuropsychologists must satisfy the following listed criteria.

1. Doctoral degree (Ph.D., Psy.D., Ed.D.) in clinical counseling or psychology from an Accredited College or University.
2. Successful completion of coursework/formal training in neuroscience and/or neuropsychological testing.
3. Neuropsychologist providers must hold valid, current, and unrestricted licenses/required certifications issued by the State(s) in which they practice their healing art. Neuropsychologist providers must provide information regarding any previous loss of license or certification, or any voluntary relinquishment of license or certification, and provide evidence that these earlier incidents do not demonstrate probable future substandard professional performance. A neuropsychologist without a valid license due to suspension or revocation by the State of Michigan Licensing Board or failure to renew within the allowed grace period, will be subject to automatic and immediate termination from the Priority Health network.
4. Two or more years of experience providing neuropsychological services in a clinical setting, supervised by a clinical neuropsychologist.
5. A valid, current, and unrestricted license to practice as a psychologist independently in the State of Michigan. Practitioners must provide information regarding any previous loss of license or any voluntary relinquishment of license and provide evidence that these earlier incidents do not demonstrate probable future substandard professional performance.
6. Practitioner must be in good standing under the Medicare and Medicaid programs.
7. Practitioner must maintain current professional liability insurance coverage meeting minimum limits of \$100,000 per occurrence and \$300,000 aggregate which must cover use of therapeutics and covers each practitioner individually (should a practitioner not meet the coverage limit requirements, Priority Health will consider exceptions based on need of practitioner type or geographic needs).
8. Practitioner must have an absence of a history of involvement in a malpractice suit, arbitration or settlement; or in the case of a practitioner with this history, evidence must be provided that the history of malpractice involvement is not indicative of probable future substandard professional performance.
9. Practitioner must have an absence of a history of denial or cancellation of professional liability insurance; or in the case of a practitioner with this history, evidence must be provided that the history is not indicative of probable future substandard professional performance.
10. Practitioner must meet contractual requirements for after hours coverage for specialty care practitioners.
11. Practitioner must have an absence of a history of involuntary termination of employment or contract as a health care practitioner; or in the case of a practitioner with this history, evidence must be provided that this history is not indicative of probable future substandard professional performance.
12. Neuropsychologist must have an absence of a history of unstable work history. Neuropsychologists must demonstrate a current, stable, verifiable work history of a minimum of four (4) consecutive

years at one location or in the case of a neuropsychologists with this history, evidence must be provided that this history is not indicative of probable future substandard professional performance.

13. Neuropsychologists must provide evidence of their ability to meet the Administrative Standard for After Hours Coverage. Evidence may be supplied via the initial application or through separate written documentation.
14. Practitioner must have an absence of a history of professional disciplinary action; or in the case of a practitioner with this history, evidence must be provided that this history is not indicative of probable future substandard professional performance.
15. Practitioner must have an absence of a history of failing to conduct themselves with a professional demeanor or of engaging in abusive or destructive behavior in professional matters. Practitioner must avoid conduct which reflects adversely on their professional fitness.
16. Practitioner must have an absence of a history indicating (in the sole discretion of Priority Health) a tendency toward inappropriate utilization management of medical resources.
17. Practitioner must have an absence of a history of criminal conviction or indictment; or in the case of a practitioner with this history, evidence must be provided that this history is not indicative of probable future substandard professional performance. A conviction within the meaning of this criterion includes a plea or verdict of guilty or a conviction following a plea of no contest.
18. Practitioner must have an absence of any history, in addition to that specified in other Criteria, that in any way is indicative of probable future substandard professional performance.
19. Practitioner must have an absence, or adequate control of, physical, mental health, or substance abuse problems which may interfere with their ability to practice their profession or facilitate cooperative working relationships, or which may pose a threat to their patients. In conjunction with this requirement, practitioner must cooperate openly and fully with any required health assessment and must provide any reasonably requested evidence of health status.
20. Practitioner must comply with all Priority Health rules, regulations, bylaws, and the terms of their practitioner participation agreements.
21. Practitioner must demonstrate their willingness to provide appropriate and necessary emergency or non-emergency medical treatment within the scope of their expertise to any Priority Health member seeking treatment.
22. Practitioner shall not be known to have made any misrepresentations to Priority Health's Board of Directors, employees, agents, or enrollees regarding the provision of services to enrollees.
23. Professional board recognition (ABCN-American Board of Clinical Neuropsychology or ABPN-American Board of Professional Neuropsychology), while not required, is further evidence of the advanced training, supervision, and applied fund of knowledge in the specialized techniques of neuropsychological assessment and interpretation.
24. Neuropsychologists under a group contract whom are terminated from that group are no longer considered contracted with Priority Health and are subject to immediate and automatic termination from the Priority Health network. Neuropsychologists may contact Priority Health to determine eligibility to contract with Priority Health on an individual basis.
25. Practitioner shall not have falsified information on their applications, provided inaccurate information on their applications, failed to respond to requests for additional information or failed to notify the

Physician Credentialing Committee regarding relevant changes in their status. Any application not meeting this criteria will be considered incomplete, made inactive and will not be processed.
