

Dental Benefits

Provided by Delta Dental

A group dental plan that lowers employer and employee costs through our partnership with Delta Dental—one of the largest providers of dental benefits in the nation.

Why offer dental coverage?

What's going on in your mouth says a lot about what's going on in your body. In fact, recent studies link oral infections with diabetes and heart disease.¹ Our Delta Dental plan² offers flexible coverage options that work with every Priority Health medical plan, so employees get the dental coverage they need to stay healthy and more productive.

Delta Dental will make you smile

- Access to two of the nation's largest dental provider networks: Delta Dental PPO™ and Delta Dental Premier®
- Discounted fees for service, lowering premium and claims costs
- No balance billing from dental providers, when you use a Delta Dental network provider
- Medical and dental enrollment from one carrier
- Split enrollment allows employers to offer dental coverage for family members, even if they're not covered on the medical plan

How it works

Employers with two or more employees can offer dental coverage in addition to medical coverage through Priority Health. Quotes are obtained directly from your Delta Dental representative (see below).

Priority Health will manage:

- Eligibility
- Billing

Delta Dental will manage:

- Explanation of benefits and other plan documents
- Network management and claims administration
- Customer service
- Quoting

Getting started

Finding a dentist

Which dentists are in the network? Employees can access providers using the Find a Dentist tool on deltadentalmi.com.

Funding options

Delta Dental is available with all fully funded or self-funded plans.

We offer two plans:

- **Contributory plans:** Allows you and your employees to share the cost of dental coverage
- **Voluntary plans:** Employees pay 100% of their dental benefits

¹Centers for Disease Control and Health Prevention; <https://www.cdc.gov/oralhealth/basics/index.html> ²The plan is not a qualified health plan, as defined by the Patient Protection and Affordable Care Act (PPACA). It is not intended to meet the minimum standards for essential health benefits for pediatric dental coverage. This plan does not cover pediatric dental benefits for individuals required to obtain that essential health benefit under the PPACA or in order to be eligible for enrollment in another health plan.
