Prior authorization criteria

The following requirements need to be met before this drug is covered by Priority Health Medicare. These requirements have been approved by the Centers for Medicare and Medicaid Services (CMS), but you may ask us for an exception if you believe one or more of these requirements should be waived.

1. Diagnosis of breakthrough pain in cancer patients
2. Age 16 years or older
3. Patient is already receiving and is tolerant to opioid therapy for underlying persistent cancer pain
4. Prescriber must be enrolled in the TIRF REMS Access Program
5. Patient must sign the Patient-Prescriber Agreement form for the TIRF REMS program

(Patients are considered opioid tolerant when taking oral morphine 60 mg/day or more, transdermal fentanyl 25 mcg/hr, oral oxycodone 30 mg/day, oral hydromorphone 8 mg/day, oral oxymorphone 25 mg/day, oral hydrocodone 60mg/day, or an equianalgesic dose of another opioid for 1 week or longer)

Medically accepted indication

This drug is only covered under Medicare Part D when it is used for a medically accepted indication. A medically accepted indication is a use of the drug that is *either*:

- approved by the Food and Drug Administration. (That is, the Food and Drug Administration has approved the drug for the diagnosis or condition for which it is being prescribed.)
- — or — supported by certain reference books. (These reference books are the American Hospital Formulary Service Drug Information and the DRUGDEX Information System)

Priority Health Precertification Documentation
