Drug cost information

The wholesale acquisition cost for one vial is \$1,880 - \$2,820. The annual cost of treatment will vary depending on the patient's circumstances and weight.

Prior authorization criteria

The following requirements need to be met before this drug is covered by Priority Health Medicare. These requirements have been approved by the Centers for Medicare and Medicaid Services (CMS), but you may ask us for an exception if you believe one or more of these requirements should be waived.

For this drug to be covered, the patient must meet the following criteria:

1. Must have a diagnosis of hereditary angioedema
2. Must submit C4, C1-INH protein, and C1-INH function lab results confirming diagnosis
3. Must be using Haegarda only for prophylaxis of acute attacks

Medically accepted indication

This drug is only covered under Medicare Part D when it is used for a medically accepted indication. A medically accepted indication is a use of the drug that is *either*:

- approved by the Food and Drug Administration. (That is, the Food and Drug Administration has approved the drug for the diagnosis or condition for which it is being prescribed.)
- — or — supported by certain reference books. (These reference books are the American Hospital Formulary Service Drug Information and the DRUGDEX Information System)
