Precertification Requirements

Before this drug is covered, the patient must meet all of the following requirements:

1. Must have unresectable melanoma with cutaneous, subcutaneous, or nodal lesions
2. Must have had disease recurrence after prior surgery

Requests for any condition not listed as covered require evidence of current medical literature that substantiates the drug's efficacy or that recognized oncology organizations generally accept the treatment for the condition.

Priority Health Precertification Documentation

A. What condition is this drug being requested for?

- melanoma *with* cutaneous, subcutaneous, or nodal lesions
 Other – rationale for use: _____

B. Has the patient had prior surgery for melanoma? Yes No
