Drug product: Omega-3-acid ethyl esters 1 gram softgel Start date (or date of next dose): _____
 Dosing frequency: _____

Precertification Requirements

Before this drug is covered, the patient must meet all of the following criteria:

1. Diagnosis of hypertriglyceridemia
2. Laboratory confirmation of triglyceride level at or above 500 mg/dL
3. For continuation of therapy, baseline triglyceride levels or evidence of triglyceride levels at or above 500 mg/dL laboratory confirmed results must be submitted
4. Must first try one of the following: fenofibrate, fenofibric acid, or gemfibrozil

Note: Authorization for indications not approved by the Food and Drug Administration (FDA) or recognized in CMS-accepted compendia (e.g. DrugDex, AHFS, U.S. Pharmacopeia, and also Clinical Pharmacology for oncology indications only) require supporting evidence for coverage.
