Date of last dose (if applicable): _____
Dosing frequency: _____

Prior authorization criteria

The following requirements need to be met before this drug is covered by Priority Health Medicare. These requirements have been approved by the Centers for Medicare and Medicaid Services (CMS), but you may ask us for an exception if you believe one or more of these requirements should be waived.

1. Torisel must be used for a medically accepted indication
2. If prescribed for renal cell carcinoma, three or more of the following are required:
 - Torisel is started within one year from date the patient was diagnosed
 - Karnofsky performance status is 60 or 70
 - Corrected calcium greater than 10 mg/dL
 - Lactate dehydrogenase greater than 1.5 times the upper limit of normal
 - More than one metastatic organ site
 - Hemoglobin less than lower limit of normal

Medically accepted indication

This drug is only covered under Medicare Part D when it is used for a medically accepted indication. A medically accepted indication is a use of the drug that is *either*:

- approved by the Food and Drug Administration. (That is, the Food and Drug Administration has approved the drug for the diagnosis or condition for which it is being prescribed.)
- — or — supported by certain reference books. (These reference books are the American Hospital Formulary Service Drug Information and the DRUGDEX Information System)

Priority Health Precertification Documentation
