 Start date (or date of next dose): _____
 Date of last dose (if applicable): _____
 Dosing frequency: _____

Precertification Requirements

The following requirements need to be met before this drug is covered by Priority Health Medicare. These requirements have been approved by the Centers for Medicare and Medicaid Services (CMS), but you may ask us for an exception if you believe one or more of these requirements should be waived.

1. Documentation of the beneficiary's residence
2. Must be prescribed for a medically accepted indication*, not otherwise excluded from coverage under Medicare Part D (e.g. diagnosis of pulmonary arterial hypertension (PAH) with World Health Organization (WHO) Group 1 classification).

Medically accepted indication*

This drug is only covered under Medicare Part D when it is used for a medically accepted indication. A medically accepted indication is a use of the drug that is *either*:

- approved by the Food and Drug Administration. (That is, the Food and Drug Administration has approved the drug for the diagnosis or condition for which it is being prescribed.)
- — or — supported by certain reference books. (These reference books are the American Hospital Formulary Service Drug Information and the DRUGDEX Information System.)

Priority Health Precertification Documentation

A. Where does the beneficiary reside?

- Home (may be covered under Part B)
- Long-term care facility (may be covered under Part D)
- Other: _____

B. What is the patient's diagnosis?

- Pulmonary arterial hypertension
- Other: _____

C. Does the patient have a World Health Organization (WHO) group 1 classification of PAH?

- Yes
- No – rationale for use: _____

Additional information

Note: These prior authorization requirements are for Part D coverage. Tyvaso is a part D drug when the patient resides in long term care (LTC) because most LTC facilities are not considered a beneficiary's "home."

Priority Health Medicare exception request

Do you believe one or more of the prior authorization requirements should be waived? Yes No

If yes, you must provide a statement explaining the medical reason why the exception should be approved.

Would Tyvaso likely be the most effective option for this patient?

Yes No

If yes, please explain why: _____

If the patient is currently using Tyvaso, would changing the patient's current regimen likely result in adverse effects for the patient?

Yes No

If yes, please explain: _____
