Precertification Requirements

The following requirements need to be met before this drug is covered by Priority Health Medicare. These requirements have been approved by the Centers for Medicare and Medicaid Services (CMS), but you may ask us for an exception if you believe one or more of these requirements should be waived.

1. Must have chronic lymphocytic leukemia (CLL) with 17p deletion as detected by an FDA approved test.
 - a. Must have received at least one prior treatment
2. Newly-diagnosed acute myeloid leukemia (AML), in combination with azacitidine or decitabine or low-dose cytarabine, in adults who are ≥60 years or who have comorbidities that preclude use of intensive induction chemotherapy.

Medically accepted indication

This drug is only covered under Medicare Part D when it is used for a medically accepted indication. A medically accepted indication is a use of the drug that is *either*:

- approved by the Food and Drug Administration. (That is, the Food and Drug Administration has approved the drug for the diagnosis or condition for which it is being prescribed.)
- — or — supported by certain reference books. (These reference books are the American Hospital Formulary Service Drug Information, the DRUGDEX Information System, and the USPDI or its successor.)
