ICD-10 Diagnosis code(s): _____

Drug cost information

The wholesale acquisition cost for one dose of Yescarta™ is $373,000.

Precertification Requirements

Before this drug is covered, documentation must be submitted to support that the patient meets all of the following requirements:

1. Diagnosis of:
    a. Diffuse Large B-cell Lymphoma (DLBCL) unspecified or from follicular lymphoma
    b. Primary mediastinal large B-cell lymphoma
    c. High grade B-cell lymphoma
2. Must have previously used two or more lines of systemic therapy

All fields must be complete and legible for review. Your office will receive a response via fax.

Last updated 12/2017
Last reviewed 01/2020

3. Patient has or will receive lymphodepleting chemotherapy with fludarabine and cyclophosphamide intravenously on the fifth, fourth, and third day prior to Yescarta infusion

NOTE: Coverage of Yescarta is limited to the dosing listed in the FDA-approved label. Patients greater than 50 kg will be allowed no more than 2.5 x 10^8 CAR-positive viable T cells. Patients weighting 50 kg or less will be authorized for weight-based dosing of 0.2 – 5 x 10^6 CAR-positive viable T cells.

Note: Authorization for indications, dosing, or a route of administration not approved by the Food and Drug Administration (FDA) or recognized in CMS-accepted compendia (e.g. DrugDex, AHFS, U.S. Pharmacopeia, and also Clinical Pharmacology for oncology indications only) require supporting evidence for coverage. Please provide two published peer-reviewed literature articles supporting the appropriateness of the drug, the dosing of the drug, or the route of administration to be used for the identified indication.

Priority Health Precertification Documentation

A. What condition is this drug being requested for?

- ☐ *Diffuse Large B-cell Lymphoma (DLBCL) unspecified or from follicular lymphoma*
- ☐ *Primary mediastinal large B-cell lymphoma*
- ☐ *High grade B-cell lymphoma*
