Wondering how our network of providers compares to other health plans?

Our network covers 97% of primary care providers and hospitals in Michigan² and almost 1 million nationwide through our partnership with Cigna. While each health plan counts providers and facilities differently, we stand behind our network and access to care anywhere in Michigan and throughout the United States. We also provide access to newer, more convenient ways of getting care including:

- Virtual care including behavioral health, care management, specialist visits, and more.
- Retail health clinics, like CVS and Walgreens.

Plus, our travel assistance program is always available at no charge for members traveling more than 100 miles away from home.
