This policy reflects coverage mandated by the State of Michigan “Abortion Insurance Opt-Out Act” effective March 14, 2014. The mandate applies to fully funded commercial members (individual and group) beginning or renewing coverage after March 13, 2014. Criteria for fully funded commercial members (individual or group) with a plan effective date prior to March 14, 2014 removed from policy as of 6/4/15 as no longer applicable.

I. POLICY/CRITERIA

A. For fully funded commercial members (individual and group) with plans beginning or renewing after March 13, 2014:

As mandated by the State of Michigan “Abortion Insurance Opt-Out Act” elective termination of pregnancy is not a covered benefit unless the group/member has purchased a rider or supplemental coverage for elective abortion.

1. The exclusion shall not apply to terminations of pregnancy when performed to:

   a. Protect the mother's life when it is endangered by continuation of the pregnancy.

   Conditions for which the abortion may be medically necessary for the life of the mother and therefore a covered benefit include but are not limited to:

      i. Severe psychiatric impairment (as evidenced by prior institutionalization or prior suicidal ideation)
      ii. Severe cardiac disease (prior history of cardiac decompensation)
      iii. Cancer (carcinoma of the cervix, breast, uterus)
      iv. Advanced hypertensive cardiovascular disease
      v. Severe renal disease (on renal dialysis, severe renal impairment due to either chronic or acute kidney disease)
      vi. Intracranial aneurysm (history of prior intracranial bleeding)
b. Increase the probability of a live birth or to preserve the life or health of the child after birth. An example would include selective abortion for multiple gestations.

c. Remove a fetus that has died as a result of natural causes, accidental trauma, or a criminal assault on the pregnant woman.

2. Effective with the *Michigan Abortion Insurance Opt-Out Act - Public Act 182 of 2013, elective termination of pregnancy is not covered:

   a. Even when two or more independent physicians concur that a fetal condition diagnosed in-utero is incompatible with life post-delivery.

   b. When the pregnancy is the result of rape or incest.

   *Michigan Abortion Insurance Opt-Out Act - Public Act 182 of 2013 – Sec. 11. As used in this act:
   (a) “Elective abortion” means the intentional use of an instrument, drug, or other substance or device to terminate a woman’s pregnancy for a purpose other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, or to remove a fetus that has died as a result of natural causes, accidental trauma, or a criminal assault on the pregnant woman. Elective abortion does not include any of the following:
   (i) The use or prescription of a drug or device intended as a contraceptive.
   (ii) The intentional use of an instrument, drug, or other substance or device by a physician to terminate a woman’s pregnancy if the woman’s physical condition, in the physician’s reasonable medical judgment, necessitates the termination of the woman’s pregnancy to avert her death.
   (iii) Treatment upon a pregnant woman who is experiencing a miscarriage or has been diagnosed with an ectopic pregnancy.
