I. POLICY/CRITERIA

Prophylactic surgery for cancer risk reduction is a covered benefit when pre-authorized and determined to be medically necessary as indicated below.

A. Prophylactic Simple Mastectomy is a covered benefit when any ONE of the following criteria is met (adapted from the National Comprehensive Cancer Network Clinical Practice Guidelines on Genetic/Familial High-Risk Assessment: Breast and Ovarian, Version 1.2006 and the Society for Surgical Oncology position statement on prophylactic mastectomy, rev. 2001):

1. Bilateral prophylactic mastectomy in women with no personal history of breast cancer AND at least one of the following:
   a. patients with known breast cancer pre-disposition (BRCA1 or BRCA2 or other strongly predisposing breast cancer susceptibility gene) deleterious mutation confirmed by genetic testing (See Genetics: Counseling, Testing, and Screening medical policy #91540); or
   b. The patient has atypical hyperplasia on biopsy as confirmed by a pathologist and is not interested in chemoprevention with SERMS (selective estrogen receptor modulators, i.e. tamoxifen and raloxifene).
   c. A family history of any of following:
      1. Two or more first-degree relatives on the same side of the family with breast cancer, at least one of whom received the diagnosis at age 50 years or younger;*
      2. One first-degree relative with breast cancer and one of the following*:
         o Two or more second-degree and / or third-degree relatives with breast cancer at least one of whom was diagnosed at age 50 years or younger; or
         o The diagnosis was before the age of 45 and one other relative with breast cancer at any age or
         o One or more relatives with ovarian cancer; or
         o The first degree relative has bilateral breast cancer
3. Two or more second degree relatives on the same side of the family with*:
   - One with breast cancer and one with ovarian cancer
   - Ovarian cancer

*Indications 1, 2 and 3 require evaluation of overall risk and discussion of the risks and benefits of all surgical and non-surgical options for risk reduction.

d. Women with large, ptotic, dense, or disproportionally sized breasts that are difficult to evaluate mammographically.

e. A history of diffuse calcifications and multiple biopsies resulting in difficulty performing or interpreting diagnostic breast exams.

2. Contralateral or bilateral prophylactic mastectomy with personal history of breast cancer and one of the following indications:
   a. It is the opinion of the surgeon and preference of the patient that in order to achieve symmetry that bilateral mastectomy would produce the best outcome; or
   b. A family history of any of following:
      1. Two or more first-degree relatives on the same side of the family with breast cancer, at least one of whom received the diagnosis at age 50 years or younger;*
      2. One first-degree relative with breast cancer and one of the following*:
         - Two or more second-degree and/or third-degree relatives with breast cancer at least one of whom was diagnosed at age 50 or younger; or
         - The diagnosis was before the age of 45 and one other relative with breast cancer at any age or
         - One or more relatives with ovarian cancer; or
         - The first degree relative has bilateral breast cancer
      3. Two or more second degree relatives on the same side of the family with*:
         - One with breast cancer and one with ovarian cancer
         - Ovarian cancer

*Indications 1, 2 and 3 require evaluation of overall risk and discussion of the risks and benefits of all surgical and non-surgical options for risk reduction.
c. Women with multiple primary breast cancers in the sentinel breast.
d. Women diagnosed with invasive breast cancer at age 45 years of age or younger.
e. Women who are confirmed BRCA 1 or BRCA 2 mutation carriers. (See Genetics: Counseling, Testing, and Screening Policy #91540)
f. Women with, lobular carcinoma in situ or atypical hyperplasia in the ipsilateral breast.
g. Women with invasive lobular carcinoma of the ipsilateral breast.
h. A history of diffuse calcifications and multiple biopsies resulting in difficulty performing or interpreting diagnostic breast exams.

Covered treatment options are simple mastectomy and simple mastectomy with reconstruction (breast implant).

B. Prophylactic oophorectomy is a covered benefit when at least one of the following criteria is met:

1. Patients who have been determined to be a member of a family with a hereditary ovarian cancer syndrome based on a family pedigree constructed by a genetic counselor or physician competent in determining the presence of an autosomal dominant inheritance pattern in which genetic testing is either not available or uninformative.
2. Patients with a BRCA mutation; or an mutation associated with hereditary nonpolyposis colorectal cancer syndrome (HNPCC)
3. Patients with a history of breast cancer, which is estrogen receptor (ER) positive, and who are premenopausal.
4. Patients with a personal history of breast cancer and at least one first degree relative (e.g., mother, sister, daughter) with history of ovarian cancer; or
5. Patients with one first degree relative (e.g., mother, sister, daughter) and one or more second degree relatives (e.g., maternal or paternal aunt, grandmother, niece) with ovarian cancer.

C. Prophylactic total gastrectomy for hereditary diffuse gastric cancer is a covered benefit for individuals with known mutations in the CDH1 gene and a positive family history of gastric cancer under the age of 50.
D. Prophylactic Hysterectomy is a covered benefit when at least one of the following criteria is met:

1. Patients with known hereditary nonpolyposis colon cancer (HNPCC) who have completed childbearing.
2. Patients with an HNPCC associated mutation that have completed childbearing.

E. Prophylactic Thyroidectomy is a covered benefit when the following criteria is met: Individual whose genetic testing is positive for a RET proto-oncogene mutations associated with Multiple Endocrine Neoplasia syndromes (MEN II A and MEN II B).

II. MEDICAL NECESSITY REVIEW

☐ Required □ Not Required □ Not Applicable

Does not apply to Medicare

III. APPLICATION TO PRODUCTS

Coverage is subject to member’s specific benefits. Group specific policy will supersede this policy when applicable.

❖ HMO/EPO: This policy applies to insured HMO/EPO plans.
❖ POS: This policy applies to insured POS plans.
❖ PPO: This policy applies to insured PPO plans. Consult individual plan documents as state mandated benefits may apply. If there is a conflict between this policy and a plan document, the provisions of the plan document will govern.
❖ ASO: For self-funded plans, consult individual plan documents. If there is a conflict between this policy and a self-funded plan document, the provisions of the plan document will govern.
❖ INDIVIDUAL: For individual policies, consult the individual insurance policy. If there is a conflict between this policy and an individual insurance policy, the provisions of the individual insurance policy will govern.
❖ MEDICARE: Coverage is determined by the Centers for Medicare and Medicaid Services (CMS); if a coverage determination has not been adopted by CMS, this policy applies.
❖ MEDICAID/HEALTHY MICHIGAN PLAN: For Medicaid/Healthy Michigan Plan members, this policy will apply. Coverage is based on medical necessity criteria being met and the appropriate code(s) from the coding section of this policy being included on the Michigan Medicaid Fee Schedule located at: http://www.michigan.gov/mdch/0,1607,7-132-2945_42542_42543_42546_42551-159815--00.html. If there is a discrepancy between this policy and the Michigan Medicaid Fee Schedule, the Michigan Medicaid Fee Schedule will govern. For Medical Supplies/DME/Prosthetics and Orthotics, please refer to the Michigan Medicaid Fee Schedule to verify coverage.
IV. DESCRIPTION

Prophylactic Cancer Risk Reduction Surgery
Includes:
- Prophylactic Mastectomy
- Prophylactic Oophorectomy
- Prophylactic Total Gastrectomy
- Prophylactic Hysterectomy
- Prophylactic Thyroidectomy

V. CODING INFORMATION

A. Mastectomy

ICD-10 Codes that apply:
- Z15.01 Genetic susceptibility to malignant neoplasm of breast
- Z15.02 Genetic susceptibility to malignant neoplasm of ovary
- Z15.09 Genetic susceptibility to other malignant neoplasm
- Z40.01 Encounter for prophylactic removal of breast
- Z40.09 Encounter for prophylactic removal of other organ
- Z40.8 Encounter for other prophylactic surgery
- Z41.8 Encounter for other procedures for purposes other than remedying health state
- Z41.9 Encounter for procedure for purposes other than remedying health state, unspecified
- Z80.3 Family history of malignant neoplasm of breast
- Z80.41 Family history of malignant neoplasm of ovary
- Z80.49 Family history of malignant neoplasm of other genital organs
- Z80.8 Family history of malignant neoplasm of other organs or systems
- Z80.9 Family history of malignant neoplasm, unspecified
- Z85.3 Personal history of malignant neoplasm of breast
- Z85.40 Personal history of malignant neoplasm of unspecified female genital organ
- Z85.43 Personal history of malignant neoplasm of ovary

CPT/HCPCS Codes:
- 19303 Mastectomy, simple, complete
- 19304 Mastectomy, subcutaneous

B. Oopherectomy

ICD-10 Codes that apply:
- Z15.01 Genetic susceptibility to malignant neoplasm of breast
- Z15.02 Genetic susceptibility to malignant neoplasm of ovary
- Z15.09 Genetic susceptibility to other malignant neoplasm
- Z40.02 Encounter for prophylactic removal of ovary
- Z40.09 Encounter for prophylactic removal of other organ
- Z40.8 Encounter for other prophylactic surgery
- Z41.8 Encounter for other procedures for purposes other than remedying health state
Z41.9 Encounter for procedure for purposes other than remediying health state, unspecified
Z80.0 Family history of malignant neoplasm of digestive organs
Z80.3 Family history of malignant neoplasm of breast
Z80.41 Family history of malignant neoplasm of ovary
Z80.49 Family history of malignant neoplasm of other genital organs
Z80.8 Family history of malignant neoplasm of other organs or systems
Z80.9 Family history of malignant neoplasm, unspecified
Z83.71 Family history of colonic polyps
Z85.3 Personal history of malignant neoplasm of breast
Z85.40 Personal history of malignant neoplasm of unspecified female genital organ
Z85.43 Personal history of malignant neoplasm of ovary
Z85.44 Personal history of malignant neoplasm of other female genital organs
Z86.010 Personal history of colonic polyps

CPT/HCPCS Codes:
58661 Laparoscopy, surgical; with removal of adnexal structures (partial or total oophorectomy and/or salpingectomy)
58720 Salpingo-oophorectomy, complete or partial, unilateral or bilateral (separate procedure)
58940 Oophorectomy, partial or total, unilateral or bilateral;

C. Gastrectomy
ICD-10 Codes that apply:
Z15.09 Genetic susceptibility to other malignant neoplasm
Z40.09 Encounter for prophylactic removal of other organ
Z40.8 Encounter for other prophylactic surgery
Z41.8 Encounter for other procedures for purposes other than remediying health state
Z41.9 Encounter for procedure for purposes other than remediying health state, unspecified
Z80.0 Family history of malignant neoplasm of digestive organs

CPT/HCPCS Codes:
43620 Gastrectomy, total; with esophagoenterostomy
43621 Gastrectomy, total; with Roux-en-Y reconstruction
43622 Gastrectomy, total; with formation of intestinal pouch, any type

D. Hysterectomy
ICD-10 Codes that apply:
Z15.04 Genetic susceptibility to malignant neoplasm of endometrium
Z15.09 Genetic susceptibility to other malignant neoplasm
Z40.09 Encounter for prophylactic removal of other organ
Z41.8 Encounter for other procedures for purposes other than remediying health state
Z80.0 Family history of malignant neoplasm of digestive organs
Z80.8 Family history of malignant neoplasm of other organs or systems
Z83.71 Family history of colonic polyps
Z86.010 Personal history of colonic polyps
CPT/HCPCS Codes:
58150  Total abdominal hysterectomy (corpus and cervix), with or without removal of tube(s), with or without removal of ovary(s);
58180  Supracervical abdominal hysterectomy (subtotal hysterectomy), with or without removal of tube(s), with or without removal of ovary(s)
58200  Total abdominal hysterectomy, including partial vaginectomy, with para-aortic and pelvic lymph node sampling, with or without removal of tube(s), with or without removal of ovary(s)
58260  Vaginal hysterectomy, for uterus 250 grams or less;
58262  Vaginal hysterectomy, for uterus 250 grams or less; with removal of tube(s), and/or ovary(s)
58263  Vaginal hysterectomy, for uterus 250 grams or less; with removal of tube(s), and/or ovary(s), with repair of enterocele
58290  Vaginal hysterectomy, for uterus greater than 250 grams;
58291  Vaginal hysterectomy, for uterus greater than 250 grams; with removal of tube(s) and/or ovary(s)
58292  Vaginal hysterectomy, for uterus greater than 250 grams; with removal of tube(s) and/or ovary(s), with repair of enterocele
58294  Vaginal hysterectomy, for uterus greater than 250 grams; with repair of enterocele
58541  Laparoscopy, surgical, supracervical hysterectomy, for uterus 250 g or less;
58542  Laparoscopy, surgical, supracervical hysterectomy, for uterus 250 g or less; with removal of tube(s) and/or ovary(s)
58543  Laparoscopy, surgical, supracervical hysterectomy, for uterus greater than 250 g;
58544  Laparoscopy, surgical, supracervical hysterectomy, for uterus greater than 250 g; with removal of tube(s) and/or ovary(s)
58548  Laparoscopy, surgical, with radical hysterectomy, with bilateral total pelvic lymphadenectomy and para-aortic lymph node sampling (biopsy), with removal of tube(s) and ovary(s), if performed
58550  Laparoscopy surgical, with vaginal hysterectomy, for uterus 250 grams or less;
58552  Laparoscopy surgical, with vaginal hysterectomy, for uterus 250 grams or less; with removal of tube(s) and/or ovary(s)
58553  Laparoscopy, surgical, with vaginal hysterectomy, for uterus greater than 250 grams;
58554  Laparoscopy, surgical, with vaginal hysterectomy, for uterus greater than 250 grams; with removal of tube(s) and/or ovary(s)
58570  Laparoscopy, surgical, with total hysterectomy, for uterus 250 g or less;
58571  Laparoscopy, surgical, with total hysterectomy, for uterus 250 g or less; with removal of tube(s) and/or ovary(s)
58572  Laparoscopy, surgical, with total hysterectomy, for uterus greater than 250 g;
58573  Laparoscopy, surgical, with total hysterectomy, for uterus greater than 250 g; with removal of tube(s) and/or ovary(s)
E. Thyroidectomy

ICD-10 Codes that apply:
- Z15.09 Genetic susceptibility to other malignant neoplasm
- Z15.81 Genetic susceptibility to multiple endocrine neoplasia [MEN]
- Z40.09 Encounter for prophylactic removal of other organ
- Z40.8 Encounter for other prophylactic surgery
- Z41.8 Encounter for other procedures for purposes other than remedying health state
- Z41.9 Encounter for procedure for purposes other than remedying health state, unspecified
- Z80.8 Family history of malignant neoplasm of other organs or systems
- Z80.9 Family history of malignant neoplasm, unspecified
- Z85.850 Personal history of malignant neoplasm of thyroid

CPT/HCPCS Codes:
- 60210 Partial thyroid lobectomy, unilateral; with or without isthmusectomy
- 60212 Partial thyroid lobectomy, unilateral; with contralateral subtotal lobectomy, including isthmusectomy
- 60220 Total thyroid lobectomy, unilateral; with or without isthmusectomy
- 60225 Total thyroid lobectomy, unilateral; with contralateral subtotal lobectomy, including isthmusectomy
- 60240 Thyroidectomy, total or complete
- 60252 Thyroidectomy, total or subtotal for malignancy; with limited neck dissection
- 60254 Thyroidectomy, total or subtotal for malignancy; with radical neck dissection
- 60260 Thyroidectomy, removal of all remaining thyroid tissue following previous removal of a portion of thyroid
- 60270 Thyroidectomy, including substernal thyroid; sternal split or transthoracic approach
- 60271 Thyroidectomy, including substernal thyroid; cervical approach
